Google Magic Formula Review: a must read before you spend your money

If you've ever tried and failed using Google Adwords...you're not alone. Some others have even used it too the extent that it has cost them their soul. Well... that's a bit much, but I think you get the idea.

It's not an easy business to be in (my humble opinion). I think you have to know exactly what you're doing to be able to use Adwords effectively.

You can probably tell that there are a ton of 'Gurus' advertising that they know how to use Adwords 'Effectively.' And, they can prove to you that they've make '\$5,000 in a day!' But, what they aren't telling you, is that they had to spend nearly that much in order to make it...so they maybe took home \$500 at the end...maybe.

But, there's a different type of Adwords product being released now...one that doesn't contain information you could find in the Q &A section of Adwords. Google Magic Formula, by Andrew & Steven show you how to really lay into Google. What they have done over the past few years is really slap Google around, and now, with Google Magic Formula, they've given you the exact same blue print.

The Google Magic Formula report teaches you about:

1. Keyword Selection – Are you tired of losing money on lousy keywords? Then this is the perfect method for you. Learn exactly how to get the most profitable ones right from the beginning.
2. No More Websites – Once this technique is mastered, you'll be killing the Adwords marketing game, because the secret to pulling in tons of cash without your own product site has arrived!
3. Turn your Readers into Buyers– Learn how to implement this right from the start, so you'll be seeing much higher conversions, and most importantly-- SALES...
4. The Ad Domination Technique – This might be the most valuable technique in the Google Magic Formula and its Adwords marketing techniques. The "magic" trick, if you will, that other Adwords marketers are using to crush their competition when they bid for key words (this will give you an unparalleled edge).

5. The Freshest Techniques FOR 2008– Advanced techniques that are new for this year, truly not the old stuff that doesn't work...

They'll also help you to:

- Crack the G "code" that sent many marketer home.
- Create explosive campaigns that practically throw you money.
- Totally exploit the 'insider' secrets that Andrew & Steven have been using to take truck loads of money from Google without any harm.
- Most importantly, they've exposed new tactics with Google Magic Formula, that are totally fresh for 2008...and they claim are already working!

Google Magic Formula is a fresh idea if you're tired of researching keywords, competition, and placing 'textbook' ads that only end up losing you money....

What I have discovered is that many 'normal' joe's – myself included – are landing on the first page in Google, without spending \$.50–\$1.00 for that traffic. I've found that I'm actually spending around \$.01–\$.05 for the first page.

Google Magic Formula is really a unique and intuitive creation that walks you through a step by step approach so that even the new aspiring affiliates can promote products and remain profitable. Google Adwords will no longer dominate the 'new guy.'

Andrew & Steven have also included an upsell to the Google Magic Formula: the \$97 package, which will be offered to all buyers on the thank you page of the \$47 ebook bundle.

However, for this week alone, they're offering the launch price of \$77 and then raising it to the above stated price (\$97).

It's your call completely. In the long run, you might be passing up your key to success, or you may already know what you're doing...that's all fine and well. Keep in mind where your business is going, always look beyond where you are now. Can this help to further your business? That is left for you to answer.
